

Índice _____

x. Órganos en chips

1. Definiciones, breve historia
2. Bio-impresión 3D
3. Chips para cultivo de células/órganos
4. Órganos en chips
5. Perspectivas...

Intro _____

1. Organs on chips

Huh et al., *Lab Chip* 12 (2012) 2156

1. Plants on chips

1. Worms on chips

Letizia et al. *Microsys Nanoeng* **4** (2018) 6

2. Bio-impresión 3D_____

<https://directorsblog.nih.gov/>

2. Bio-impresión 3D_____

Davoodi et al.,
Adv. Mater. Technol. 5 (2020) 1901044

2. Bio-impresión 3D_____

Murphy and Atala, *Nature Biotechnology*, (2014) Advance Online Publication

2. Bio-impresión 3D_____

Wyss Institute at Harvard

<https://wyss.harvard.edu/technology/3d-bioprinting/>

www.lifesci.com.ar

3. Chips para células/órganos

Vollertsen et al, *Microsystems & Nanoengineering*, 6 (2021) 107

3. Chips para células/órganos

Fan et al, *Scientific Reports* 6 (2016) 25062

3. Chips para células/órganos_____

3. Chips para células/órganos_____

AIM Biotech
3D Cell Culture Chip

3. Chips para células/órganos_____

Abbas et al., *J. R. Soc. Interface* 14 (2017) 20170131

3. Chips para células/órganos_____

Shiwarski et al., *Sci. Adv.* 11 (2025) eadu5905

4. Órganos en chips_____

Abbas et al., *J. R. Soc. Interface* 14 (2017) 20170131

4. Órganos en chips_____

Zhang et al., *Lab Chip* 21 (2021) 473

4. Órganos en chips_____

Zhang et al., *Lab Chip* 21 (2021) 473

4. Órganos en chips_____

Zheng et al., *Nature* 573 (2021) 421

4. Órganos en chips_____

Wyss Institute
Harvard

Kim et al., *Lab Chip*, 12
(2021) 2165

4. Órganos en chips_____

Si et al., *Nature
Biomedical Eng.*
5 (2021) 185

5. Towards MOC, BOC

Ramadan and Sourob,
Biomicrofluidics 14 (2020) 041501

5. Former multi-tissue platforms

Skardal et al.,
Sci. Reports 7
(2017) 8837

5. ¿Human-on-a-Chip?

heal.nih.gov/news/stories/Human-on-a-Chip

5. Perspectivas

Jalili-Firoozinezhad et al., *Trends in Biotech*, 39 (2021) 838

Agradecimientos_____

Muchas gracias por venir,
por su interés en nuestro trabajo,
y por su amable atención!

Claudio Berli
26 junio 2026
